

WYBRANE PUBLIKACJE:

1. Diagnostyka genetycznych przyczyn chorób spektrum autystycznego z perspektywy lekarza specjalisty genetyki klinicznej. Szczałuba K. Psych Pol 2014
2. Application of custom-designed oligonucleotide array CGH in 145 patients with autistic spectrum disorders. Wiśniowiecka-Kowalik B, Kastory-Bronowska M, Bartnik M, Derwińska K, Dymczak-Domini W, Szumbarśka D, Ziemka E, Szczałuba K, Sykulski M, Gambin T, Gambin A, Shaw CA, Mazurczak T, Obersztyn E, Bocian E, Stankiewicz P. Eur J Hum Genet. 2013 Jun;21(6):620-5.
3. Lack of sequence variations in THAP1 gene and THAP1-binding sites in TOR1A promoter of DYT1 patients. Palada V, Stiern S, Glöckle N, Gómez-Garre P, Carrillo F, Mir P, Szczałuba K, Tinazzi M, Ajena D, Romani M, Valente EM, Müller U, Bauer P, Riess O, Ott T, Grundmann K. Mov Disord. 2012 Jun;27(7):917
4. Nijmegen breakage syndrome with macrocephaly, schizencephaly and large CSF spaces—extended spectrum of the condition. Szczałuba K, Mierzewska H, Obersztyn E, Tryfon J, Bekiesińska-Figatowska M, Szczepanik E, Chrzanowska K, Bocian E. J Appl Genet. 2012 May;53(2):189-91.
5. Genotype-phenotype correlation in CC2D2A-related Joubert syndrome reveals an association with ventriculomegaly and seizures. Bachmann-Gagescu R, Ishak GE, Dempsey JC, Adkins J, O'Day D, Phelps IG, Gunay-Aygun M, Kline AD, Szczałuba K, Martorell L, Alswaid A, Alrasheed S, Pai S, Izatt L, Ronan A, Parisi MA, Mefford H, Glass I, Doherty D. J Med Genet. 2012 Feb;49(2):126-37
6. A spectrum of LMX1B mutations in Nail-Patella syndrome: new point mutations, deletion, and evidence of mosaicism in unaffected parents. Marini M, Bocciardi R, Gimelli S, Di Duca M, Divizia MT, Baban A, Gaspar H, Mammi I, Garavelli L, Cerone R, Emma F, Bedeschi MF, Tenconi R, Sensi A, Salmaggi A, Bengala M, Mari F, Colussi G, Szczałuba K, Antonarakis SE, Seri M, Lerone M, Ravazzolo R. Genet Med. 2010 Jul;12(7):431-9.
7. Severe mental retardation, seizures, and hypotonia due to deletions of MEF2C. Nowakowska BA, Obersztyn E, Szymańska K, Bekiesińska-Figatowska M, Xia Z, Ricks CB, Bocian E, Stockton DW, Szczałuba K, Nawara M, Patel A, Scott DA, Cheung SW, Bohan TP, Stankiewicz P. Am J Med Genet B Neuropsychiatr Genet. 2010 Jul;153B(5):1042-51.
8. A family with paroxysmal nonkinesigenic dyskinesia: genetic and treatment issues. Szczałuba K, Jurek M, Szczepanik E, Friedman A, Milewski M, Bal J, Mazurczak T. Pediatr Neurol. 2009 Aug;41(2):135-8.
9. Clinical and molecular-cytogenetic evaluation of a family with partial Jacobsen syndrome without thrombocytopenia caused by an approximately 5 Mb deletion del(11)(q24.3). Bernaciak J, Szczałuba K, Derwińska K, Wiśniowiecka-Kowalik B, Bocian E, Sęsiadek MM, Makowska I, Stankiewicz P, Śmigiel R. Am J Med Genet A. 2008 Oct 1;146A(19):2449-54.
10. The ARX mutations: a frequent cause of X-linked mental retardation. Nawara M, Szczałuba K, Poirier K, Chrzanowska K, Pilch J, Bal J, Chelly J, Mazurczak T. Am J Med Genet A. 2006 Apr 1;140(7):727-32.
